

CFA Society Czech Republic is Pleased to Bring You the CFA Institute Research Challenge

CFA Institute Research Challenge

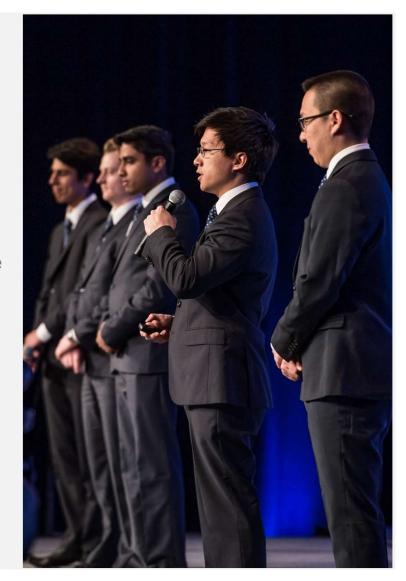

- Worldwide intercollegiate competition between teams of students
- Unique educational opportunity to apply what you have learned in the classroom to real-world practice in equity research
- Organized by local CFA Society volunteers
- Winners from the local competitions advance to one of the three regional competitions, culminating in a global final

How it Works

- 1. Local CFA Society volunteers work in conjunction with participating local universities to assemble teams of 3–5 business and finance students
- 1. Each team works directly with a mentor to research and prepare an equity research report on a publicly traded company
- 1. Team findings are locally evaluated by high-profile panels of heads of research, portfolio managers, and chief investment officers from some of the world's top firms
- 1. Local champions advance to regional competitions in the Americas, Asia Pacific, and EMEA, and then to the global final
